RMDSTEM opens an Adelaide office

RMDSTEM Managing Director Ian Lawrence announced today that the company had opened an Adelaide office and launched a new Smelter Services business offering. The new practice, based in Adelaide, will be lead by Steve Day, General Manager - Smelter Services.

Mr Lawrence said, "I'm pleased to announce that we have expanded our office base into Adelaide. We believe it's important to stay close to our key customers and a presence in Adelaide will enable us to provide an enhanced level of service.

"We've been working closely with our key clients at BHB Billiton's Olympic Dam operations and OZ Minerals Prominent Hill operations. I look forward to continuing and strengthening those relationships," said Mr Lawrence.

Leading the Smelter Services team is Steve Day, who was most recently the Smelting Manager with BHP Billiton's Expansion Project. Steve has held senior leadership positions with a number of large companies and has over 20 years of mineral processing experience.

The Smelter Services group has pyro-metallurgical and hydro-metallurgical experience in copper, nickel, zinc and lead smelting. The team offers a range of services including;

- technical advice
- troubleshooting
- optimisation/improvement
- benchmarking
- shutdown planning and execution
- commissioning

RMDSTEM - working with our clients to make substantial and lasting improvements to their businesses through application of our business tools, technical skill and experience
