RMDSTEM joins CRCMining SME Club

RMDSTEM has joined CRCMining's SME Club.

The Club was established to enable CRCMining to engage with small to medium sized enterprises working in the mining technology sector, to keep them informed about activities within the CRC and to allow them the opportunity to participate in research work or technology commercialisation.

RMDSTEM has an association with CRCMining going back over 10 years, with work including;

1. Technology roadmapping
2. Economic impact assessments
3. Economic impact projections
4. Project management of a new underground face sampling technology (in progress)

Joining the SME club is another step in the close association between RMDSTEM and CRCMining.

For further information about RMDSTEM's services check the company's website www.rmdstem.com.au.
