
Health and Safety Policy

POL-HR-05-06

Health and Safety Policy

We believe that for our business to grow and flourish we must continue “to provide a service to our clients that is of a superior level than if they were to do it themselves or have another organisation do it for them”. We believe that to achieve this goal our employees must be fit, healthy and safe.

To this end we continue to foster a culture where safety is an intrinsic part of all our activities.

Our key tools for maintaining this culture are:

- Providing Health and Safety Training at our Employee Inductions
- Inspection and control
- Communication
- Education
- Training
- Up-skilling
- Effective investigation

We expect our employees carry out their activities in a way that:

- Complies with relevant legislation and statutes
- Complies with the policies, standards and procedures of our clients
- Continually reviews their approach to risk management
- Recognises their responsibilities for carrying out activities that minimises risk to both themselves and their colleagues

A handwritten signature in black ink, appearing to read 'Ian Lawrence', written in a cursive style.
